

Keep Learning All Summer with Exact Path

Access Edmentum Exact Path from Home!

Have you heard of the “summer learning slide”? Studies show that when students don’t engage in learning activities over the summer months they could lose up to two months of math and reading skills. Don’t send your kids back to school already behind—keep them engaged in fun learning experiences that will set them up for success the following school year.

This summer, your student has access to an online learning program from Edmentum called Exact Path.

This exciting digital tool begins by targeting each learner’s academic strengths and needs, then prescribes a tailored playlist of lessons and activities just right for them. Students can earn rewards and monitor their own progress each step of the way.

Step 1: Visit login.edmentum.com

Step 2: Enter your login details.

Where can my student find their work?

Within a learning path no more than four skills worth of content will display at once. Each skill will include a variety of activities ranging from instruction, practice, and a quiz. Friendly icons will indicate where your student can begin working, continue practicing, or review completed work.

How will my student’s learning path change as he or she keeps working?

After completing the skills that are displayed in your student’s learning path, a short Progress Check will be unlocked. This quiz will assess your student’s understanding of the skills he or she just learned and determine if additional review is needed or if your student is ready to move ahead to more advanced material.

Where can my student see his or her progress?

A rewards area will show any Trophies or Challenge badges your student has earned or may have in progress. After completing a Progress Check, your student can earn a Trophy for every skill he or she demonstrates mastery on. Additionally, any Challenges created by your student’s teacher(s) will also display. Challenges can be set to encourage working for a set amount of time or earning a set number of Trophies.

** Or use your student's simple login by going to the link on your elementary school website.
